ULI – TAP Conclusion:

• The border zones are under appreciated and underused city and national assets. There is an untapped market that needs to be nurtured and should be nurtured for this is not only the gateway into two great cities but a gateway to the U.S. and Mexico. The gateway should exude pride, prosperity, and celebration of the Cali Baja Mega Region.

• The ULI panel believes that with a multi-sector binational effort that includes physical improvements, intentional active recreation, cultural landmarks the border will be a vibrant destination with growing recreation, green space, and vitality.
